capdell

Chairs by Capdell have become a benchmark in the world of interior design thanks their use of the latest materials, innovative designs and distinctive contemporary style. Designers achieve elegance and simplicity in the purity of lines and balance between function and innovation. Their creations are conceived for maximum adaptability to any interior or exterior motifs, allowing for a varied combination of materials, tones and textures. Versatility in all our creations is always prominent. Capdell has developed more than twenty different lines of chairs, arm chairs and tables with aesthetic and functional characteristics certain to satisfy the specific needs for the home, hotel, restaurant and office in any corner of the world. Our combined effort, along with the implementation of innovative systems in design and production, guarantee an unprecedented level of quality surpassing industry standards, making it possible for Capdell to enjoy a far-reaching presence within the international furniture market.
