

## Humanscale Design Studio

Functional forms, human factors, timeless design and environmental sustainability are at the heart of each solution developed by the Humanscale Design Studio. Since 2002, the studio has grown from a single designer to an award-winning powerhouse, boasting 26 international designers, engineers and prototypists. In addition to developing many of Humanscale's cutting-edge products, the design team brings innovative ergonomic ideas to life for third-party clients.
