

**PRODOTTO:**

Ledos

**BRAND:**

Zumtobel

The LEDOS LED recessed luminaires cannot fail to impress with a wide range of light colours that can be generated, perfect colour rendition quality and a variety of designs. With its LEDOS LED lighting systems, Zumtobel presents fascinating application perspectives of the new lighting technology for indoor and outdoor areas. Whether LEDOS M in underground car park entrance areas, as bollard luminaires, KAVA LED for corridor lighting in cinemas and theatres, LEDOS Wall for guidance in multi-storey car parks, or LEDOS RGB in prestigious reception areas - what all versions have in common is low energy consumption, long service life, no maintenance, vibration- and shock resistance. The wide range of light colours that can be generated in combination with good colour rendition quality allow the use of LEDOS' coloured lighting points in a variety of ways.
