

PRODOTTO:

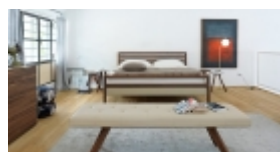

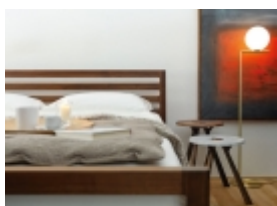

Mylon

BRAND:

Team 7

Il raffinato gioco di materiali che si alternano sui lati conferisce al letto mylon un aspetto solenne e seducente. La variante con la morbida testiera imbottita e rivestita in tessuto o in pelle richiama l'attenzione sulla struttura in legno particolarmente raffinata. La testiera imbottita e i longheroni sono sfoderabili, sia per una semplice pulizia, sia per cambiare colore o materiale. mylon può essere progettato anche con una testiera a doghe in legno naturale. L'accoppiata perfetta? Quella con la pediera opzionale. In alternativa alla pelle e al tessuto, il letto mylon può essere progettato anche con dei fianchi in puro legno naturale.
