

Windy

BRAND:
Montis

DESIGNER:
Papavoine Gijs

One of the most important and practical features of this armchair is the modest amount of space it occupies. But despite its compact structure, the high concave back guarantees comfort. The high seat base gives the armchair 'active' seating characteristics and makes it suitable for people with long legs or those who want to be able to stand up easily. With the attractive geometrical shape of wind-filled sails, this easy chair conjures up images of a tethered yacht.
