Quodes is a Dutch furniture design company that offers contemporary interior products 'with a soul'. Quodes is known for its design storage units, but we also offer additional beautifully designed items such as a stool, table, side tables, mirror and ceramics.

We offer products to consumers that are looking for a piece of well-designed furniture as a 'lifetime companion'. We we also service interior architects and help them turn projects into attractive human places.

Quodes is a platform for a small selection of deeply involved and dedicated leading designers from different nationalities. They all have an authentic handwriting we select them because of their drive to take the next step in product design. That is exactly what we intend to achieve with each of our new products.

We are proud to work with these inspiring designers. BarberOsgerby (London), Marcel Wanders (Amsterdam) and Alfredo Häberli (Zürich) have been with Quodes from the beginning. Later Quodes also started to work closely with Nendo (Tokyo).

With these designers, Quodes presents an inspiring collection for the living room, bedroom and office. This exclusive collection is intended for individuals with different tastes and needs, but always with the sole intention to add a timeless piece of quality design furniture to their lives. A Quodes piece of furniture is created with vision, the best craftsmanship and by using the most beautiful materials. Al 'lifetime companion' thus implicitly very sustainable.

Several of the Quodes pieces have been exhibited in museums, published in art books or have been recognized by the media. Our bookcase 'Pattern', designed by Alfredo Häberli was selected by Wallpaper magazine as 'Best Shelving of the Year'. Stool 'Ken', designed by Marcel Wanders was earmarked by Elle Decoration as 'Future Classic'.

Welcome to the wonderful world of Quodes...
