

Mejor Bartek

Bartek Mejor graduated from the Royal College of Art in London (UK) in 2011 with a Master degree in ceramic & glass, and completed a Bachelor degree in ceramic design at Bath School of Art & Design (UK). Since 2008, he has been collaborating with a leading Portuguese porcelain and lead-crystal glass brand, Vista Alegre, for which he designed several collections of tableware and decorative objects. Bartek also worked as a design consultant for porcelain manufactures such as Wedgwood and Royal Doulton. His collections are regularly presented at design fairs in Frankfurt, Paris and Madrid, and individual projects are exhibited in curated shows and awarded in contests, such as Must Have 2013 at the 'ód' Design Festival (PL) and Talente Design Award 2008 at the International Trade Fair in Munich (GER). In his work as a designer and maker, Bartek makes the most of the potential offered by contemporary technologies, and merges them with traditional craft techniques.
