

Phil Luithlen (born 1974) - Non-Designer Phil Luithlen has a vision to create an aesthetically sophisticated and equally functional environment for the modern individual- one of the guiding ideas of the BAUHAUS movement at the time.

The parallel is no coincidence. As most of the BAUHAUS movements teachers and students background was rather divers, so is Phil Luithlen's background and his evolution of becoming a designer: as a natural scientist by education and a craftsman he never meant to design industrially for domestic interiors.

Phil Luithlen lives and works in Leicester (UK).
