

PRODUCTO:
Elemen Beam

MARCA:
Materia

The Element easy chair with its distinct shape is now also available as beam furniture. The distance between the seat and the back has several well thought out functions. It provides good sitting comfort, makes cleaning easier, and makes it easy to exchange seat and back components. Element Beam Sofa can be supplemented with armrests in black rubber lacquer, a table in white compact laminate and a waste bin fitted to the beam frame. The seat is available in two heights -- normal and high. Like a chameleon, Element Beam Sofa can adapt to different environments, and lends itself to various arrangements.
